Washington, DC 20554

Dear The Federal Communications Commission,

Congratulations on your appointment to Chair the FCC. In your new leadership role, I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). The Fair Share Plan will keep the USF fair, ensuring that consumers like me do not pay the same rate into the USF as big businesses, regardless of how little I may use long distance. The Keep USF Fair Coalition submitted the Fair Share Plan to the FCC on January 31, 2005. It expands who pays into the USF so that other technologies - not just phones - pay into the system. The Fair Share Plan collects the USF using a combination numbers- and revenue-based plan. This keeps the system fair, equitable and non-discriminatory. Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers. I urge you to keep the USF fair, and adopt the Fair Share Plan. Thank you, and best of luck in your new position. It would be nice if someone would look into the CEO'S salaries and bonus's which never stop but they keep yelling we are going bankrupt!! Why do't they lower their tremendous incomes then they wouldn't have to be raising our taxes in everything. I object strenuously to this bias in giving in to these tremendous corporations and making things easier for them when they aren't making it any different for themselves.... When is someone going to defend the little guy and give them a fair play ??? Money still talks in the right places and that is the CEO's in every corporation !!

Sincerely,

gilda Kay
